**AMENDMENT UNDER 37 C.F.R. § 1.114**

The Assistant Commissioner For Patents  
Box RCE  
Washington, D.C. 20231

Dear Sir:

In response to the Office Action, dated January 2, 2002, placing the above patent application under final rejection, please consider the following amendments and the accompanying remarks, the time for response having been extended for two months, in conjunction with the Request for Continued Examination submitted herewith. In view of the comments made by the Examiner in the January 2 Office Action, these amendments should place the present application in form for allowance.

Please amend the claims as follows:

Sub I  
G  
Claim 14 (four times amended). A method of determining axonal damage in the head of a patient suspected of having traumatic head injury, said method comprising the steps:

- (a) obtaining a sample of cerebrospinal fluid from said patient;
- (b) treating said sample of cerebrospinal fluid with at least one monoclonal antibody, said at least one monoclonal antibody having been raised against an axonally-derived tau protein of SEQ ID NO:1;
- (c) detecting the presence of said axonally-derived tau protein bound to said at least one monoclonal antibody; and
